

Twin – Cam Security Lock – TSL
High Security Locking

Twin Cam Security Locking (TSL) from ROTO is a major breakthrough in window locking systems, offering more than double the security of industry standard products and giving you a host of reassuring benefits:-

Each pair of cams close together utilising both sides of the security striker.

Key Features:

- 10 Year guarantee (subject to correct maintenance)
- One of the strongest & most reliable locking systems
- BBA approved (British Board of Agreement)
- SBD approved (police preferred specification)
- One piece mechanism (most shootbolts are 3 part)
- Low handle height for DDA compatibility
- Rotosil coating, exceptional corrosion resistance
